Independent auditor's review report on the interim condensed consolidated financial statements

To the Shareholders of Mobile Telecommunications Company Saudi Arabia

(A Saudi Joint Stock Company)

Kingdom of Saudi Arabia

Introduction:

We have reviewed the accompanying interim condensed consolidated statement of financial position of Mobile Telecommunications Company Saudi Arabia - a Saudi Joint Stock Company (the "Company") and its subsidiaries (collectively referred to as the "Group") as at 30 June 2024, and the related interim condensed consolidated statement of profit or loss and other comprehensive income for the three-month and six-month periods ended 30 June 2024, and the related interim condensed consolidated statements of changes in equity and cash flows for the six-month period then ended, and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting" ("IAS 34") as endorsed in the Kingdom of Saudi Arabia. Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

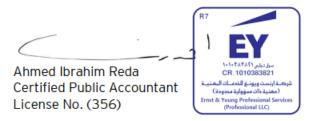

Scope of Review:

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" as endorsed in the Kingdom of Saudi Arabia. A review of interim condensed consolidated statements consists of making inquiries, primarily to persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing that are endorsed in the Kingdom of Saudi Arabia and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion:

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 as endorsed in the Kingdom of Saudi Arabia.

1 ORGANIZATION AND ACTIVITIES (continued)

1.3 Binding Agreement for sale of Tower

Pursuant to the letter received from the Communications Space and Technology Commission (CST) No.4319/1443/AH dated 27/10/1443H (corresponding to 28/5/2022G) approving Golden Lattice Investment Company (GLI) (formerly Zain Business Company Limited, a former subsidiary of Zain KSA) to acquire at least 8,069 of the telecom tower sites owned by Zain KSA, an Asset Purchase Agreement "APA" was signed with GLI whereby at least aforementioned sites will be transferred within a period not exceeding 18 months from the Financial Completion date. The aggregate value for such transfer to the Group was agreed to be the cash proceeds of SR 2,421 million along with a 20% equity stake in GLI subject to call option right, which has been exercised during 2023 by GLI.

During the first quarter ended 31 March 2023 Financial Completion date was triggered and all respective conditions were completed, consequently the passive infrastructure of all the sites were derecognized from the books of the Group. Additionally, and in accordance with the terms and conditions of the Mobile Tower Space use Agreement ("MTSA") with GLI, the Group leased back the right to use specified spaces on each site recognizing the Right of Use Assets ("ROU") and Lease Liability ("LL") on the same.

The ground leases for all sites, whether transferred or yet to be transferred but landlord consent is available, have been accounted in such a manner that the related ROU and LL have been derecognized with any resulting gain or loss recognized in the interim condensed consolidated statement of profit or loss and other comprehensive income. For all other cases, the related carrying amounts of ROU and LL have been retained, but reassessed for the lease term. The total loss on termination due to the above accounting for ground leases has been recorded in consolidated financial statements for the year ended 31 December 2023.

Due to the significant judgements and estimations involved in assessing transfer of control, the accounting of the transaction was revisited in the fourth quarter of 2023 resulting in the above accounting treatment which resulted in restatement on the reported figures for the respective quarterly interim condensed consolidated financial statements of 2023 (refer note 20).

15 CAPITAL COMMITMENTS AND CONTINGENCIES (continued)

The Group in the normal course of business is subject to and also pursuing lawsuits, proceedings, penalties and fines imposed by the regulator, municipalities and other claims from suppliers and telecommunication providers. The Group, after having consulted with its internal and external legal counsel and technical advisors, believes that these matters are not expected to have a significant impact on the financial position or the results of operations of the Group.

The CST's violation committee has issued several penalty resolutions against the Group; which the Group has objected to. The reasons of issuing these resolutions vary between linking ID for the issued prepaid SIM Cards and providing promotions that have not been approved by CST and/or other reasons. As of 30 June 2024, lawsuits and violations amounts to SR 7.3 million which has been recorded fully (30 June 2023: SR 25.5 million). The Group is involved in legal litigation claims in the ordinary course of business, which are being defended; there are also some claims under the process of final settlement. The ultimate results of these claims cannot be determined with certainty as at the date of preparing the interim condensed consolidated financial statements; the Group's management does not expect that these claims will have a material adverse effect on the Group's interim condensed consolidated financial statements.

In accordance with the Net Telecommunications Revenue Base Regulations for Licensed Service Providers (the regulation) as issued by Communications, Space and Technology Commission (CST), the Group is required to submit quarterly Net Telecom Revenue forms (NTR forms) including NTR base along with supporting documentation. NTR base is calculated as the total revenue less exempted revenue and allowable expenses as defined in the regulations.

Due to absence of reasonable assurance report on the submitted NTR forms for the period ended 31 March 2023, during 3rd quarter of 2023, the Group has received an invoice from CST amounting to SR 266 million which was calculated based on the revenue as reported in the interim condensed consolidated financial statements for the period ended 31 March 2023 instead of NTR base for the respective period which resulted in SR 97 million being additional amount. The reasonable assurance report was subsequently submitted. Till the quarter ended 30 June 2024 the Group has adjusted SR 89.2 million amount against above advance payments to CST.

15-1 WITH HOLDING TAX (WHT)

On 7 July 2015 (18 Ramadan 1436H), The Group received withholding tax assessments from Zakat, Tax and Customs Authority (ZATCA) for the years from 2009 to 2011 whereby ZATCA asked to pay an additional amount of SR 267 million as withholding tax subject to delays penalty payable from the due date up to the settlement date equals to 1% for every 30 days. The Group appealed this claim on 27 August 2015 which resulted in the reduction of withholding tax claim by SR 219 million to SR 48 million, subject to delays penalty.

To appeal before the High Appeal Committee (HAC), the Group completed the required conditions in the Articles of the Saudi Tax Law, by paying the invoices issued by ZATCA amounting SR 48 million on 16 November 2017 related to Withholding Tax (WHT) and issued a bank guarantee for the amount of SR 43 million related to the penalty generated from the delay in paying the WHT.

On 3 June 2021, the HAC issued its decision on the final claim which was reduced to SR 8.4 million. The Group has appealed against this decision to the Appeal Committee for Tax Violations and Disputes and the case is pending as at 30 June 2024.

The Group received additional assessment with an amount of SR 252 million for certain withholding tax items for the years from 2012 to 2021. The Group has appealed those assessments against the relevant committees. The Group believes that the outcome of those appeals will be in the Group's favor with no material financial impact as the Group has sufficient provisions to cover these amounts.

Status of assessments

The Group had finalized its zakat status up to 2008 and obtained the related certificate.

The Group had submitted its consolidated financial statements along with group zakat returns for the years from 2009 to 2022 and paid zakat according to the filed returns. From 2021 onwards, Zain Payment Company – Tamam is submitting, paying and obtaining zakat certificate form ZATCA separately, consequently the Group had submitted zakat return from 2021 till 2022 excluding Zain Payment Company – Tamam.

Zakat was assessed by ZATCA and agreed with no additional claim for the years ended 2012 and 2013. The Group received additional assessment of SR 20.3 million for Zakat for the years from 2014 to 2018 which the Group has appealed against these additional claims to the relevant committees. The Group believes this will not result in any material additional provisions. Zakat was assessed by ZATCA and agreed with no additional claim for the years ended 2012 and 2013. The Group has not received Zakat assessment for 2019, 2020, 2021 and 2022.

There is no financial impact as the Group has sufficient provisions to cover these amounts.

18 FAIR VALUE OF FINANCIAL ASSETS AND LIABILTIES

18-1 Fair value Hierarchy

Assets and liabilities measured at fair value in the interim condensed consolidated statement of financial position are grouped into three levels of fair value hierarchy. This grouping is determined based on the lowest level of significant inputs used in fair value measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

All the financial assets and liabilities of the Group are carried at amortized cost except for derivative financial instruments. Therefore, the fair value hierarchy disclosure which requires a three-level category of fair value is not disclosed.

18-2 Carrying amount vs fair value

The Group considers that the carrying amount of the following financial assets and financial liabilities are a reasonable approximation of their fair value:

- Cash and cash equivalents
- Trade and other receivables
- Due to related parties
- Trade and other payables
- Borrowings
- Other non-current liabilities
- Investment FVTPL

Derivative financial instruments

18-3 Valuation techniques

These derivatives are valued using widely recognized valuation models. The Group relies on the counterparty for the valuation of these derivatives. The valuation techniques applied by the counterparties include the use of forward pricing standard models using present value calculations and mid-market valuations.

Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, credit spreads, foreign exchange rates, and forward and spot prices.

19 DERIVATIVE FINANCIAL INSTRUMENTS

On 22 September 2020 Company entered into profit rate swaps, which matures in 2025. The maturity of the profit rate swap has been extended till the extended maturity of the refinanced loan (refer to note 7-1). The outstanding notional amount of the contract as at 30 June 2024 was SR 2.56 billion (31 December 2023: SR 2.56 billion) and the fair value was a positive amount of SR 67 million as at 30 June 2024 (31 December 2023: SR 76 million).

The average contracted fixed interest rate ranges from 2% to 3%. A loss of SR 8.5 million was recognized in other comprehensive income for six months period ended 30 June 2024 (30 June 2023: gain of SR 5.4 million) as a result of fair value movements relating to this hedge. The fair value of profit rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract. As at reporting date all the critical terms of both hedge item and hedge instrument are the same, so the hedge is considered to be effective.

20 EFFECT OF PRIOR PERIOD RESTATEMENT

During 2023, management conducted a comprehensive assessment of IFRS 16 compliance and identified that Right of use assets, right of use assets - classified under held for sale, lease liabilities and lease liabilities directly associated with assets under held for sale have been understated or classified under accruals due to various reasons. Hence the management, restated the comparatives figures in consolidated financial statements, by adjusting and reclassifying respective balances on consolidated statement of financial position with insignificant impact on retained earnings during the year ended 1 January 2023. Accordingly, the previously reported amounts on consolidated statement of financial position as at 1 January 2023 have been restated to reflect the effect of this adjustment.

A summary of the effect on the individual components of balances as at respective year for the above changes is summarized as follows:

As at 1 January 2023	As previously reported	Restatement	Reclassification	As currently reported

Further due to significant judgements and estimations involved in assessing transfer of control, for the treatment of sale and lease back transaction with GLI, the accounting of the transaction was revisited in the fourth quarter of 2023. This resulted in change of accounting treatment from previously recorded transactions.
